MO STEP=UP EXPORT TRAINING: INTRODUCTION TO INTERNATIONAL TRADE

From advice about negotiating with foreign sellers to guidance on moving goods through U.S. Customs while ensuring compliance, this course provides essential information about trading internationally.

Each unit covers the why, where and how to go international with a goal of preparing participants to assume responsibility for planning an international business strategy.

This is a practical, online course allowing for maximum flexibility and taught by experienced practitioners in the field.

Completion of this course provides participants with credits which can be applied to the [Chancellor's Certificate in International Trade.](#)
